TERMINAL DISCLAIMER

Commissioner for Patents

Alexandria, VA 22313-1450

Dear Sir:

In accordance with 37 C.F.R. §3.73(b), Petitioner, Energy Science Laboratories, Inc., a California Corporation, represents that it is the assignee and sole owner of the entire right, title and interest in the patent application identified above by virtue of an assignment. A copy of this assignment is recorded at Reel 012279/Frame 0756.

This application is a continuation of application Serial No. 09/593,587, filed June 13, 2000, now U.S. Patent No. 6,913,075, issued on July 5, 2005. Application Serial No. 10/464,830, filed on June 17, 2003, is a continuation-in-part of application Serial No. 09/593,587. Petitioner certifies that it is the assignee and sole owner of the entire right, title and interest in and to application Serial No. 10/464,830 by virtue of assignment from the inventors, Timothy Knowles and Christopher Seaman. This assignment document is recorded with the U.S. Patent and Trademark Office at Reel 014533/ Frame 0677.

Pursuant to 37 C.F.R. § 1.321(b), Petitioner hereby disclaims the terminal part of any patent granted on the patent application identified above that would extend beyond the expiration date of the full statutory term of a patent granted on application Serial No. 10/464,830 and hereby agrees

Appl. No. : 10/072,424
Filed : February 8, 2002

that a patent so granted on the patent application identified above will be enforceable only for and during such period that the legal title to the patent shall be the same as the legal title to a patent granted on application Serial No. 10/464,830. This agreement extends to the patent granted on the patent application identified above and will be binding on Petitioner's successors and assigns.

Petitioner does not disclaim any terminal part of a patent granted on the patent application identified above before the expiration date of the full statutory term of a patent granted on application Serial No. 10/464,830 in the event that a patent granted on application Serial No. 10/464,830 later: expires for failure to pay maintenance fees; is held unenforceable; is found invalid; is statutorily disclaimed in whole or terminally disclaimed under C.F.R. § 1.321(a); has all claims canceled by a reexamination certificate; is reissued; or is in any manner terminated prior to the expiration of the full statutory term.

The undersigned representative verifies that he is authorized to take this action on behalf of the Petitioner.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,
